"I advocate and volunteer for Women United because of its dedicated focus on supporting Early Childhood Success in my community. Together with its partners, Women United strives to equip families and children in their earliest years with foundational development and education to set them up for a thriving future. We strive to provide affordable, reliable, and quality childcare - which goes beyond supporting our youngest students - it's an essential need for our workforce to be engaged and economy to flourish."

- Natali Justiniano Pahl, Women United Global Leadership Council Member
